WHY?

- **Tamils have no solution after over 70 years of negotiations with no place to call Home.**
- **Tamil historical land is being colonised and integrated with South making Tamils minority and powerless.**
- **We want to live freely and in peace in our homeland : “We have legitimate issues to solve and desire to control our own lives, to rule our own destinies, and to govern ourselves in our homeland.”**
- **Current Tamil political hierarchy is fractured to the core.**
- **Once a political solution is found, TUNO will urge all Tamils around the world to invest in Sri Lanka with potential over £50 billion in foreign investment.**
